What is Third Dimension R/C?

Third Dimension is a new R/C Club geared towards flying whatever you want, however you want. We saw the need for a new club in the area dedicated towards getting the younger generation involved in our wonderful hobby, and also saw the need to help people advance in 3D Heli flying and 3D airplane flying. While 3D flying is a great way to get new people interested in our hobby, and to advance your own skill, it is certainly not necessary to be a valued member of 3DRC.

Our core members are involved in everything from sport flying to competition, and can help with any aspect of the hobby. We want to fly with everyone, and the only thing we don't want out at the field is complaining (unless safety is of concern). We will focus on everything from park flyers to giant scale IMAC birds, from CX2's to .90 size heli's, and everything in between. Expect to hear more noise, and see more flying low and center field flying compared to the typical pattern flying at other clubs.

We also decided to depart from the traditional board you may know from other clubs. While our board still has official titles, we are truly a committee type format. Everyone on the board has an equal voice, and all club decisions will be a majority vote of the board. We decided to follow this format as it will provide what we feel is the best way to keep the club on track and in touch with the clubs original goals.

I have read the club statement and understand the intent of Third Dimension R/C.

Signed _____ Date _____

A 2009 AMA Membership will need to be photocopied and sent with application along with a self addressed stamped envelope.

Please make checks to Jim Procai and send applications to:
